DETAILED ACTION

1. Claims 1-6, 9, 10 and 14 are pending. The previous 35 USC 112 rejections are withdrawn pursuant to Applicant's October 27, 2006 Amendment and REMARKS.

Claim Rejections - 35 USC § 103

2. Claims 1-6, 9, 10 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mital, US 5,903,652.

Mital discloses, e.g Figs. 1-15, a computer network, e.g. Fig. 2, an electronic audit system, e.g. 400, including database management records, e.g. 406, and International Organization for Standardization (ISO) system, e.g. 404. Mital does not disclose the term communication device. However, Mital's system does communicate data via its system. Official Notice is taken that the additional features recited from claims 1-6, 9, 10 and 14 have been common knowledge in the art prior to Applicant's filing date. To have provided a communication device for Mital would have been obvious to one of ordinary skill in the art in view of Official Notice.

Applicant's attempt at traversing the Official Notice findings as stated in the July 27, 2006 Office Action is inadequate. Adequate traversal is a two step process. First, Applicant must state their traversal on the record. Second, and in accordance with 37 C.F.R. § 1.111(b) which requires Applicant to specifically point out the supposed errors in the Office Action, Applicant must state why the Office Action statements are not to be considered common knowledge or well known in the art.

In this application, Applicant has clearly met step (1) as traversal of Official Notice has been taken. Second, Applicant has failed step (2) since they have failed to argue why the Official Notice statements are not to be considered common knowledge or well known in the art. Applicant did not affirmatively state why such common knowledge is not known. Because Applicant's traversal is inadequate, the Official Notice, e.g. common knowledge, statements are taken to be admitted as prior art. See, MPEP § 2144.03.

Further, it is noted that Applicant's claim language is replete with intended use claim language, e.g. claim 1, lines 1, "for an auditor" and "to be audited," are given little, if any, patentable weight in juxtaposition to positively recited claim language, e.g. claim 1, line 5, "a database." As is, Applicant's claim language does not distinguish over Mital, in view of Official Notice.

3. Applicant's Information Disclosure Statement (IDS) submitted November 21, 2002 has been reviewed. Note attached PTO-1449.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
